

# Cap-Brulé's New Wastewater Treatment Facility PROJECT UPDATE No. 9 February 2024

"The Dunes" approach concept  
by Acre Architects Inc.

## 2024 has just started, and we have exciting news:

### Contract 1:

- The design revision of the new headworks building is done. Its tender process advertisement has been published.
- Construction is scheduled for the beginning of Spring 2024.

### Contract 2:

#### Phase A – Pre-selection of Major Equipment

- Screening Systems, Grit Removal, Pumps and Generators had their tendering processes done in November 2023.
- UV Disinfection Equipment tender process will be advertised this month.
- GSSC will be able to pre-purchase all major equipment once the New Headworks Building Construction contract is awarded.

#### Phase B – Construction of Lagoons and Outfall

- Tendering is planned for February 2025.
