

Cap-Brulé's New Wastewater Treatment Facility PROJECT UPDATE No. 10 April 2024

"The Dunes" approach concept
by Acre Architects Inc.

The Construction Season has arrived:

Contract 1 (Headworks Building):

- On April 18th, 2024, the tender process was completed and awarded.
- The construction of the New Headworks Building will start in May, with its foundation excavation by Edgeline Construction Ltd. as the General Contractor.

Contract 2 (Lagoons):

Phase A – Pre-selection of Major Equipment

- GSSC has awarded the major equipment: Influent and Effluent Pumps, Screening Systems, UV Disinfection Equipment, Grit Removal, and Generators. They will be installed by the General Contractor responsible for the New Headworks Building Construction.

Phase B – Construction of Lagoons and Outfall

- Tendering is planned for February 2025.

Existing Lagoons
