

Cap-Brulé's New Wastewater Treatment Facility PROJECT UPDATE No. 30, January 2026

"The Dunes" approach concept
by Acre Architects Inc.

Construction of the Headworks Building:

- Ongoing activities include the continued erection of the building's structural steel framework, along with the receipt and inspection of newly delivered equipment components.
- Activities also included the receipt of the screening system for the Grit Removal equipment, which will support upcoming installation and commissioning phases.
- Installation activities are ongoing for the mechanical systems within the Influent Lift Station, supporting the transition to the next stages of operational readiness.
