

Cap-Brulé's New Wastewater Treatment Facility PROJECT UPDATE No. 34, May 2026

"The Dunes" approach concept
by Acre Architects Inc.

Construction of the Headworks Building:

- Ongoing interior works, including steel stud framing, greenboard installation, insulation, and membrane application.
- Ongoing skylight framing, trench drains, and under-slab electrical rough-in in key building areas.
- Completed underground and exterior works such as duct bank installation, propane line installation, and light pole bases.
- Advanced concrete works, including rebar installation, slab preparation, pump base pours, and testing.
